Distinctive, transformative research and scholarship
A rigorous, engaging, and empowering learning environment
A welcoming, inclusive, and collaborative community
Advancement of the public good

The central campus administration must provide the foundation for the faculty and staff in the schools, colleges, and other units to achieve the goals laid out in their respective strategic plans. The matrix below identifies three strategic goals for building that foundation. Within each central campus strategic goal, there are 2-4 broad objectives, key initiatives to support those objectives, initial specific action items to further the objectives, and metrics by which we can gauge our progress and develop additional action items. The senior administrators listed as the lead coordinators are responsible for working with the deans and other unit leaders to provide resources and services in support of the objectives that each school/college/unit sets for itself and to facilitate coordination and collaboration for multidisciplinary and cross-campus initiatives.
### Objective: Increase Net Revenue
